Subject: RE: ecn963

Yes Linda.

The D3180-041 Rev. A should be scrapped and replaced with D3180-041 Rev. B.

I have a W/O here, stamped positive recall for 3 D3180-041 Rev. B.

One of them was sent to a customer for fit and function purposes.

Based on the positive feedback I got from them, we decided to release the drawing at Rev. B.

I will sign off the W/O and release qty(2) D3180-041 at Rev. B.

Marc,

For ecn963, am I just suppose to scrap the D3180's (REV.A) in stk?

Peggy ... check your email ... we HAVE the STC for the A119 bubble windows.
The STC is not the holdup anymore.
Or did you not get my email from last Friday?

David
